

Why do we spin?

Because

- we do not want a cultural tradition to disappear that sustained humanity many thousand years.
- we want revive and preserve an ancient art. We love working with traditional spinning tools, like spindles and spinning wheels.
- we are fascinated by the technology of these ancient tools.
- by spinning local wool, we contribute to the conservation and the diversity of local sheep breeds.
- with our hands we can produce individual yarns and textiles from animal or plant fibers from all over the world.
- spinning allows us to transform our creative ideas into finished projects.
- it is fun to share our interests with other spinners, to join in periodic regional spinning groups, gatherings and annual conventions.
- Because spinning yarn is relaxing and benefit of our mind and spirit.
- We are fascinated by traditional spinning tools like spindles and spinning wheels. And we love working with them.
